# DECENTRALIZED SMART CONTRACT

Decentralized Community Platform  
Powered by Polygen

# DECENTRALIZATION FUTURE SUCCESS !

A smart contract is an algorithm with automatic execution. It exists inside the polygon blockchain, which is one of the top cryptocurrencies. Smart contracts, like cryptocurrencies themselves, are decentralized. They work strictly according to a certain program, and once they are launched, it is impossible to change their mode of operation.

The code that determines the logic of a smart contract is written in a blockchain, and all calculations are performed by millions of computers around the world. This ensures that a smart contract cannot be hacked or stopped.

# SMART CONTRACT

A smart contract is a self-executing contract with the terms of the agreement directly written into code. It operates on a blockchain, and its execution is automatic when predefined conditions are met. Smart contracts aim to facilitate, verify, or enforce the negotiation or performance of a contract, making transactions more secure, transparent, and efficient.

## IMPORTANCE

It's important to note that while smart contracts offer numerous benefits, they are not without challenges. Security vulnerabilities in the code, legal and regulatory considerations, and potential for unintended consequences are factors that need careful consideration in the development and deployment of smart contracts.

# POLYGON BLOCKCHAIN FUTURE SUCCESS !

Polygon (POL) is a cryptocurrency and a technology platform that was launched to connect and grow Ethereum-compatible projects and blockchains.

## IMPORTANCE

The Polygon Blockchain standard plays a significant role within the Polygon Blockchain (POL) ecosystem, contributing to the growth and development of various projects and decentralized applications. Polygon Blockchain lies in its role as a standard for creating tokens on the Polygon Blockchain, fostering interoperability, enabling efficient cross-border transactions, supporting decentralized finance applications, and contributing to the overall growth and innovation within the Polygon Blockchain ecosystem.

Blockchain technology holds significant importance across various industries due to its unique features and capabilities

Fair & Transparent

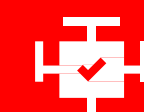

Secure & Trustworthy

**Polygen** is an innovative decentralized marketing platform based on the **Polygon Blockchain**. Here you can earn Polygon by community program, as well as inviting new users.

Profitable & Worthwhile

Easy To Access & Use

# Register through smart contract in polygon wallet with 1 POL

To achieve your desired income, its essential to purchase corresponding package

 1.5 - Sniper Reward

 0.5 - Spring Reward

 1.5 - Rank & Royalty

 1.5 - P Gold ( Global )

 3 - Sniper Reward

# HOW IT WORKS

## Spring Reward

## Unlimited Spring Reward

- When **U** joins **A** spring reward will be received by **U**
- When **U** joins **B** spring reward will be received by **U1**
- When **U** joins **C** spring reward will be received by **U**
- When **U** joins **D** spring reward will be received by **U2**

Every Payment of **1 , 3 , 5 , 7 , 9 ....** Will be received by **U**

Every Payment of **2 , 4 , 6 , 8 , 10 ....** Will be received by Upline with maximum direct from downward to upward checking.

**Second Income bounce to Upline** : Your second income bounce to your upline, enhancing your earning potential and earn immediately upon sponsoring someone, boosting your earnings instantly.

**Unlimited Depth Earnings** : Enjoy spring rewards from an unlimited depth, maximizing your earning opportunities.

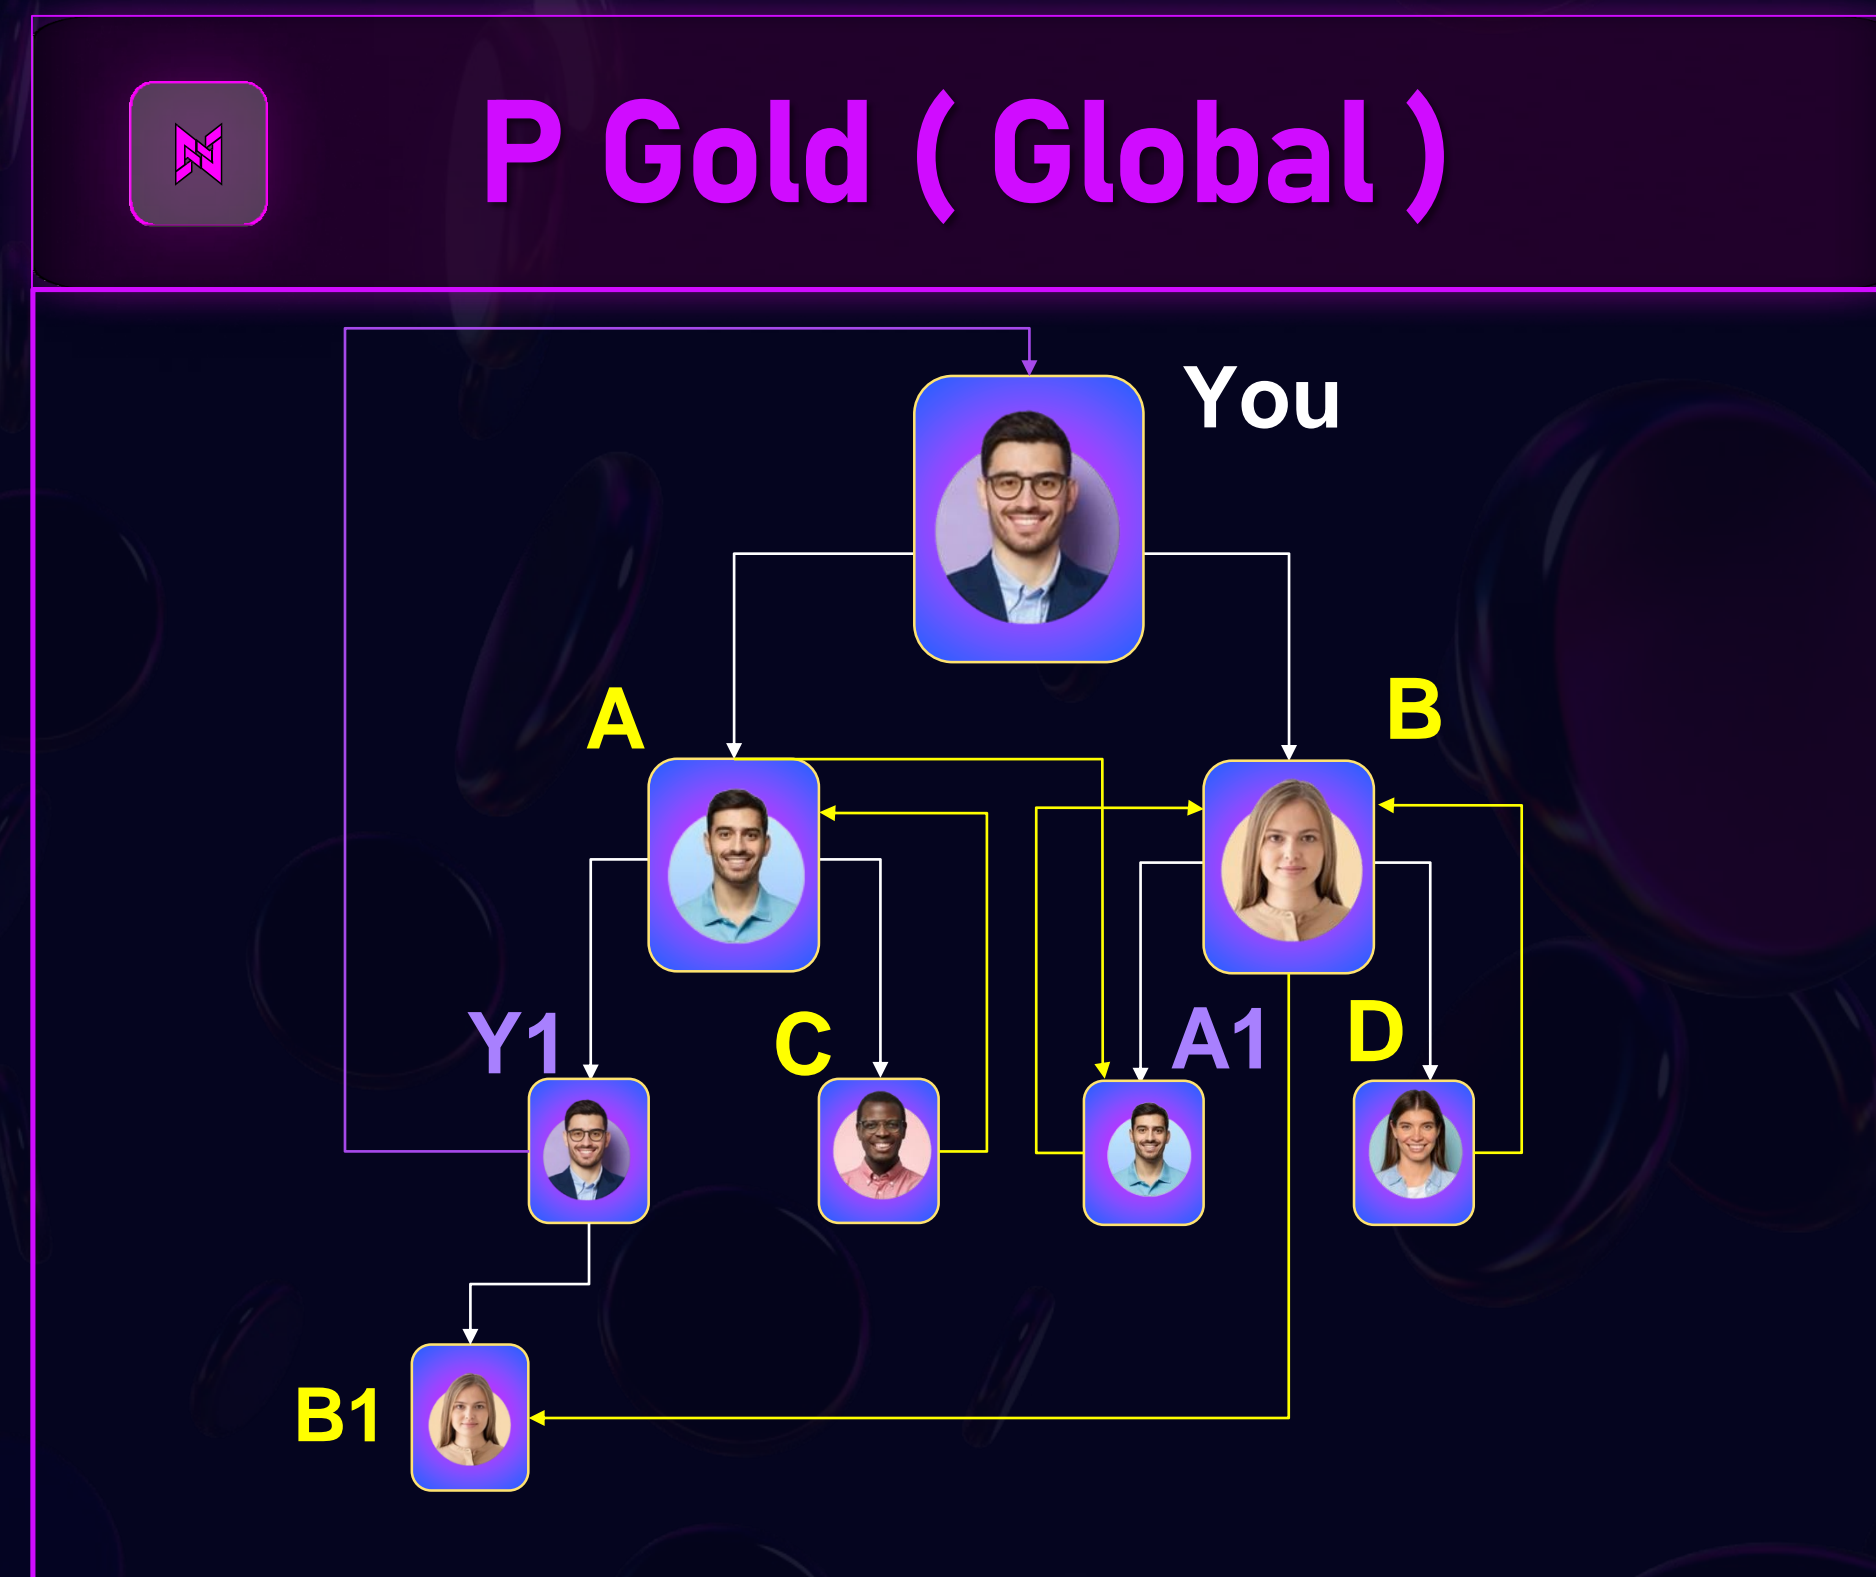

# HOW IT WORKS

## PLACEMENT STRUCTURE

TOP-TO-BOTTOM, LEFT-TO-RIGHT

- Receive this bonus Unlimited times from global structure.
- Continuous Income: Your first income is yours to keep, while the second income re-enters, You into the Global structure for continuous earning.
- Lifetime Income Enjoy receiving this bonus continuously through out your lifetime.

# RANK & ROYALTY

RANK NAME	DIRECT REQ.	TEAM			Qualification for next week		Distribution from total fund ( % )
		Main Leg	Other Leg	Total	Main Leg	Other Leg	
Rider 1	3	10	10	20	5	5	30%
Rider 2	4	25	25	50	10	10	20%
Rider 3	5	50	50	100	20	20	10%
Rider 4	6	200	200	400	100	100	10%
Rider 5	7	500	500	1000	250	250	10%
Rider 6	8	1250	1250	2500	750	750	10%
Rider 7	9	2500	2500	5000	2000	2000	8%
Rider 8	10	5000	5000	10000	5000	5000	2%

# NOTE FOR RANK ROYALTY

- Add sufficient new member to get weekly rank royalty rewards.
- Upgrade your rank to unlock greater rewards & earning potential.
- The weekly royalty will be evaluated every Sunday 11 : 59 pm GMT.
- Rank and Royalty rewards will be assessed according to the highest Rank reached by the participants.
- In cases where a participant achieves more than one rank during the same week, the reward will be given for the highest rank attained.

# STEPS TO START

You will need a  
**Decentralized wallet**  
to get started.

## STEP - 1

Download a decentralized wallet, such as (Trust Wallet, Token Pocket, Metamask, or Safepal etc) that is capable of supporting the Polygon network.

## STEP - 2

Fund your wallet with a minimum of 10 POL.

## STEP - 3

Paste referral link on Dapp & register.

## STEP - 4

Access your account and initiate the referral process.

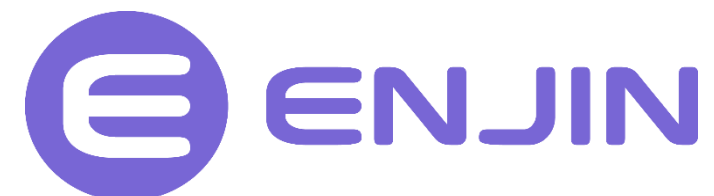

# SUPPORTED WALLET

A list of the top **14 Decentralized wallets** that support the Polygon network

# DISCLAIMER

- The income of the participant, known as the Independent Brand Promoter (IBP), is entirely reliant on their skills, dedication, effort, leadership qualities, sales abilities, and the prevailing market conditions.
- The income generated from the Polygen opportunity will differ among individuals. An IBP must show dedication and effectiveness in their efforts. As a result, some IBPs may achieve significantly higher performance levels, while others may not reach the same earnings.
- Polygen makes no assurances regarding the income. Past performance does not ensure future outcomes, as the Crypto Market carries inherent risks.
- This presentation features various content, images, and information intended solely for illustrative purposes. These components aim to visually represent and communicate concepts, ideas, or scenarios, and may not precisely depict current or specific details.
